While selecting order to recall, you will have a list showing you this info for each order:

- Table number
- Order type
- Check name or number
- items that you will recall.

After selecting, confirm by tapping the tick mark:

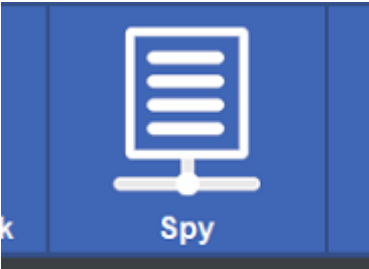

If the same chit contains more than one item, you will have to recall all items in that chit as shown in the list.

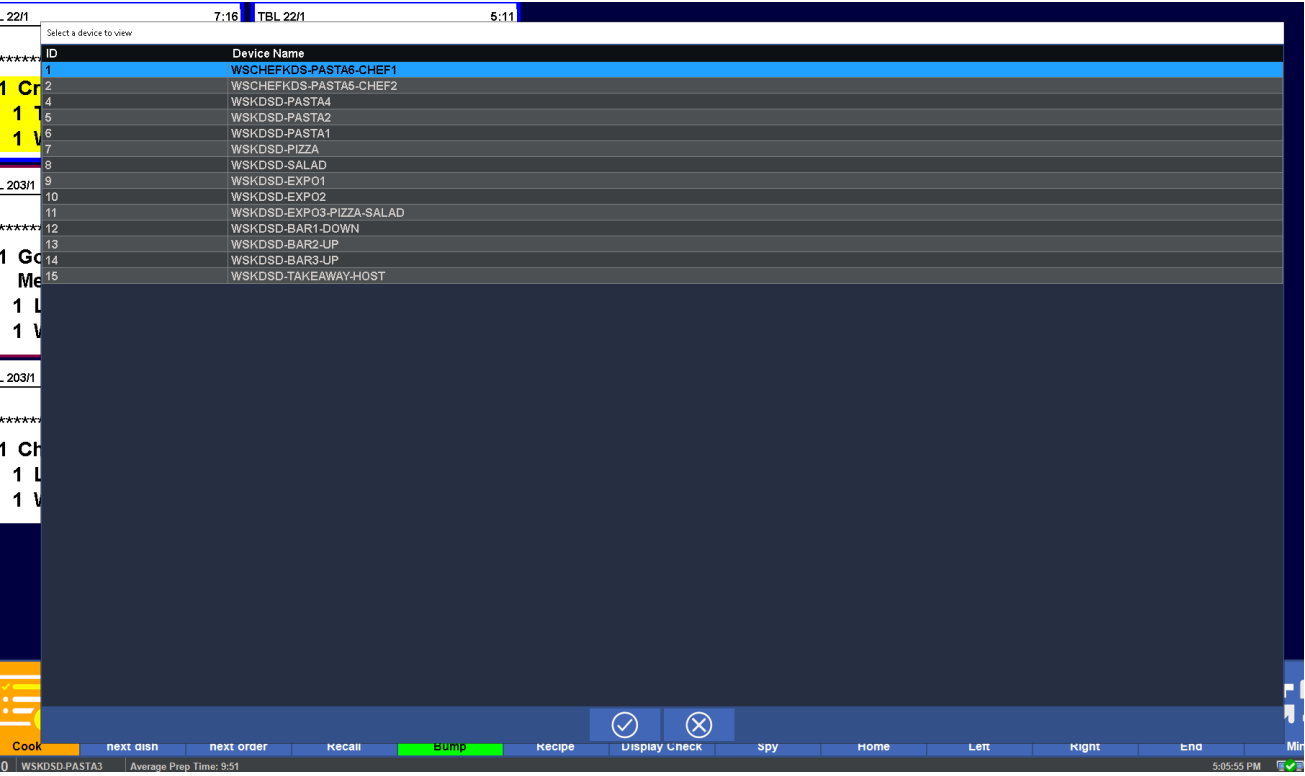

Items must be recalled from chef screen, or in spy mode to a chef screen. When recalling from Expo, the chefs will not see the item on their screen.

Spy function

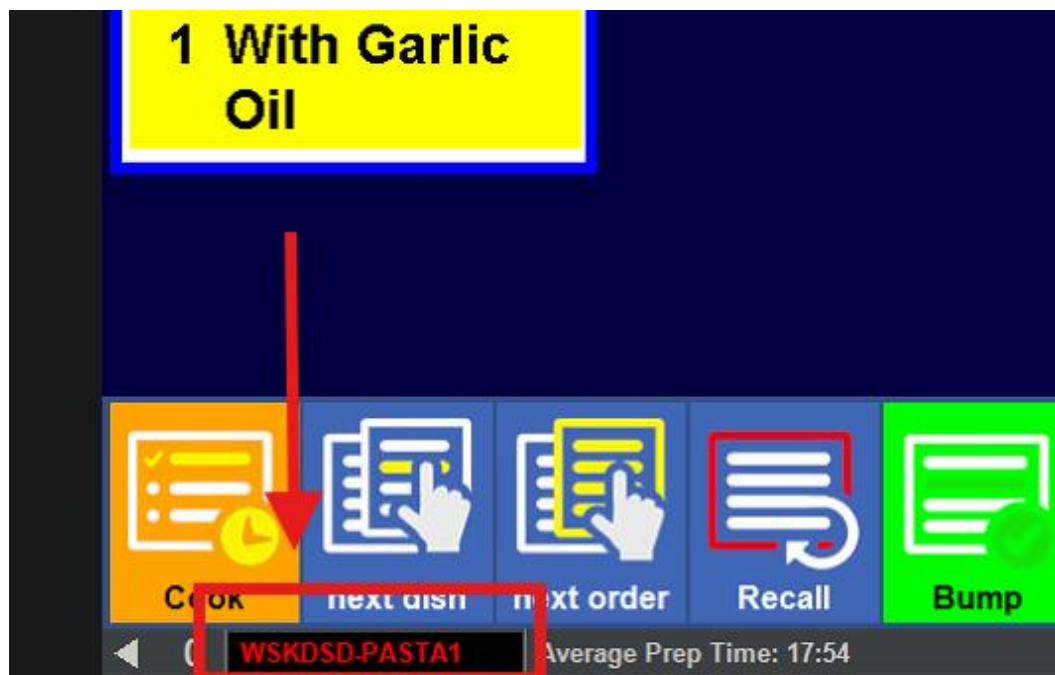

To view another screen use the spy button:

This will open the displays list. Choose the screen you want to spy and tap the checkmark to continue:

While spying, the display name will flash yellow and red:

Display check

To display the full order, use the display check function:

When you select a chit and use this function, you will be able to have the whole order at a glimpse:

PASTA ALL'ARRABIATA

INGREDIENTS

1x portion pasta
1x 15ml ladle rapeseed oil
1-5 rings pickled chilli
1x 15ml ladle garlic oil
1x 50ml scoop roasted cherry tomatoes
2x 60ml ladle tomato sauce
1 pinch salt
10g vegetarian Parmesan, freshly grated

Put pasta in the pasta colander and activate the timer

Place wok on the cooker and preheat. Pour oil circularly into the wok, allowing it to run down the sides

When the oil is hot and streaks, put first pickled chilli and then garlic in the wok and fry

When the garlic is beginning to become translucent, add in roasted cherry tomatoes

Deglaze with tomato sauce and boil up briefly. Turn heat off

Season with salt. Drain pasta and add to the sauce

Mix everything well with a spatula and place in a pasta bowl

Pepper the poles of the pasta bowl and place the roasted chilli down in the centre of the dish.
